

Brett:

I wanted to thank you for a great season. When we decided to sign Ben up for soccer this season he was very hesitant. After playing club soccer for the past 6 years, he was tired of coaches yelling and screaming and only caring about winning. So he thought he might want to just take a year off. But I convinced him to try your team and it was a perfect fit for him. The players were incredibly nice and you were just what Ben needed. Your patience and very fair approach to playing time was a wonderful breath of fresh air for us. Ben so enjoyed the entire experience. Thank you for showing Ben the fun of the game again.

The bad news is that because of Ben's age he has to go up to U18 next year. We wish he could spend another year on your team. Hopefully he will be able to find another coach with your sense of fairness and patience next year. Your players are lucky to have you and their success on the field is a tribute to the way you approach the game on the sidelines.

Once again, thank you so much for a great season.

Gina Harrison
